Davies & Stoddard Attend Conference At M.I.T., In Boston

Elizabeth Davies, newly elected president of Student government, and Polly Stoddard went to Boston on Saturday to participate as representatives of Mary Washington College to the M. I. T. national intercollegiate conference on "Selectivity and Descrimination in American universities," More than American universities." More than 200 students and deans from more than 70 colleges throughout the nation took part in the conference at the Massachusetts Institute of Technology on March 25, 26, and 27th. The conference has been planned by M. I. T. students to develop an understanding of the causes and the problems created by the existence of discriminatory practices in some American colleges. If brought into contact students administrators and professions dents, administrators and profes-sors from all sections of the country to discuss these vital questions in small discussion

groups.
Typical of the questions that arose in these discussions were the

arose in these discussions were the following:

How many valid grounds for a basis of selection be determined?
What causes people to adopt discriminatory practices?

Are restrictive clauses in college social or living groups unwarrant-ed discriminatory and practices?

ed discriminatory and practices?
Do college administrations have
the right to interfere in fraternal
selective practices?
The conference opened Friday
afternoon with keynote addresses
by Frederick May Eliot, President
(Continued on Page 6)

Summer School Plans Already in Full Swing

Already in Full Swing

Mary Washington College will
hold its eight-week summer session from June 13 to August 5.
Continued through the entire session will be the special secretarial
program designed for high school
and undergraduate college students and graduate students who
wish to prepare for secretarial
work. A special five-week course
for teachers interested in certificate renewal will open June 13.

An eight-week course in ceramic art is scheduled with provision for special students to be accepted for a four-week period
without academic credit.

sion for special students to be accepted for a four-week period without academic credit.

The College has also continued its program of graduate study in cooperation with the University of Virginia. Credit earned in the summer session may count toward a master of education degree offered by the department of education of the University.

Work for a degree at MWC can.

Work for a degree at MWC can be completed in three calendar years by attending three general and three summer sessions. The usual academic courses wil be of-fered this year.

Baber and Feinglass **Presented Bullet Keys**

Betty Baber and Tobi Feinglass have received the annual Bullet Awards for service to the paper. These awards consist of silver

keys. Betty, a sophomore from Galla-tin, Tennessee, has been feature editor of the Bullet for the past year. She has also been a Bayonet Counselor and a member of the M. W. C. Players. Betty, who is majoring in Speech and Drama, also likes to read, play golf, and swim.

Tobi, a freshman from Wilming-Tobi, a treshman from wilming-ton, Delaware, has been an excel-lent reporter on the feature staff of the Bullet this year. She en-joys painting, writing, and playing tennis. Her major is Political

Mr. Albert R. Klein and Miss Kathy Rozmarynowska were convincing in Players successful production of "Angel Street."

Y.W.C.A. Sponsors | Horace Heidt Homecoming Queen To Appear Here

In order to raise money for its centennial gift to the international Y.W.C.A., our campus "Y" is sponsoring a Homecoming Queen who will be selected by the students who cast their ballots in form of pennies. The candidate receiving the largest number of penny votes will be crowned Homecoming will be crowned Homecoming Queen at the Alumnae-Student-Faculty Talent Show Saturday night in G.W. Auditorium, This is a new feature to be included in Alumnae Week-end, and just one of many events planned for the Alumnae.

The candidates, selected by each class, the Town Girls, and the Alumnae Daughters, are as fol-

sows:
Senior Class, Linda Munden, from Norfolk; Junior Class, Nancy Hanna, from Norfolk; Sophomore Class, to be elected; Freshman Class, Daisy Anadon, from Coto Laurel, Puerto Rico; Town Girls, Sue Straughan, from Fredericksburg; Alumnae Daughters, Elizabeth Fordham, from Portsmouth.

Pictures of the candidates and jars for the votes will be located outside the Terrace Room under the Y.W.C.A. bulletin board this

The Y.W.C.A. and the Alumnae
Association urge the student body,
and alumnae to support this project, for if it proves to be successful, it may become an annual
feature of Alumnae Weekend in
future very

Organ Recital Monday, Apr. 4 at duPont Theatre

The Student Group of the American Guild of Organists of M.W.C. will sponsor an organ recital in duPont Little Theatre on Monday, April 4, at 7:30 P.M. The musicians who will take part in this recital are Patricia Allison, Dorothy Andrews, Elizabeth Clark, Marlene Bost, Laura Clarkson, Peggy Kelly, and Dorothy Snead. These girls are pupils of Mrs. Jean Slater Appel, instructor in organ at M.W.C.

On March 31

Horace Heidt and his company will present a two and a half hour show in George Washington Audi-torium at 7:30 P.M. on March 31. Among the entertainers who will be on the show are Ralph Sig-wald, the "Caruso of the South," Ralph Brenaman, a young drum-mer, and Heidt's orchestra.

mer, and Heidt's orchestra.

The show is a benefit performance for George Washington Boyhood Home Restoration, Inc. The funds raised will be used to buy and preserve Ferry Farm where George Washington spent part of his early life.

Tickets are on sale at the Penney Co. store in Fredericks-burg now. The cost of these tic-kets ranges from \$1.20 to \$3.80.

Auditions have been held for the local talent who will appear on the show. If Heidt considers the local performers talented enough they may appear on his T. V. show.

Many New Members For Student Council Presented in Convo.

Last Wednesday night at one of the most impressive Convocation programs held this year, the new Student Council members, Honor Committee President, Freshman Counselors, and Fire Commander were installed.

Commander were installed.

Marian Minor installed Betty
Davies, the new Student Government President. Then the other
council members were installed.

Marian called the names of the old
officers and Betty welcomed the
new officers. As each girl's name
was called, the old council memwas called, the old couldn't member stepped forward and presented the new member with a red carnation.

The old members were dressed The old members were dressed in navy suits and the new ones in white suits. The stage backdrop consisted of a hand holding a lighted torch with the M.W.C. motto, "Pro Deo Domo Patria," written under the torch.

"Just Routine" Huge Success For Sophomores

March 24 and 25 were the dates of the sophomore benefit, "Just outline." Directed by sophomore ass vice-president Bruce Ritchie, lee show was about the search for gift for the seniors. After going I over the world to find a collosite the seriors of the seriors of the seriors. March 24 and 25 were the dates for the sophomore benefit, "Just Routine." Directed by sophomore class vice-president Bruce Ritchie, the show was about the search for a gift for the seniors. After going a gift for the seniors. After going all over the world to find a collossal gift, the class finally discovered that the best gift of all was the friendliness and school spirit between the sister classes here at MWC.

In the specialty acts of the bene-fit, there were quite a few im-personations of such prominent figures on campus as Hetti Cohen, figures on campus as Hetti Cohen, played by Arlene Silbiger; Mrs. Harris, played by "Honey" Cocke; Mrs. Shackleford, played by Betty Baber; and Miss Timmerman, played by Carolyn Ball.
Thelma, played by Janet Ward, was interested entirely in the social life at college, while her roommate Prudella was just what her

mate Prudella was just what her name might insinuate, a prude. Her only interest while at college was to pile up as many quality points as possible. She just didn't understand why Thelma and her friends liked to play bridge rather than to study for a test. While Thelma was studying for a Biology test the feel asleen and dreamed test she feel asleep and dreamed that three skeletons were dancing and singing. The skeletoons were Kit Johnson, Sally Strawhand, and

Betty Ann Rhodes.

At a dorm party the next night, who should appear but the Easter Bunny, himself, played by Marcia Stambach. Entertainment at the party was given by several groups. Sandy Ball and Barbara Zimmer gave a rendition of "Side By Side" gave a rendition of "Side By Side" in which they were really side by side. Their antics in trying to move and sing while in the same pair of dungarees (size 50) was something to behold. Naomi, Johns told the group what she thought a good fraternity man was, but she was contradicted by a larger group who gave an exactly opposite opinion of a frat man. Jackie Richard, Neicie Sigman, and Marcia Stambach sang "Cool Water," which was followed by Joyce Kolksteim and Gladys Friedman giving some advice on how to catch

cia Stambach sang "Cool Water," which was followed by Joyce Kolksteim and Gladys Friedman giving some advice on how to catch a man. Practically the whole fifth floor of Mason got up then and gave an excellent rendition of "Little David." "Mrs. Shack," and "Miss T" came to the party then and told the girls that it was almost time for lights out, so the party was over.

After Easter vacation, which was the time when everybody was to search for a gift for the Seniors, all came beck with interesting experiences. Sidney Cowles and Liz Seneff came back from the "Wild West" and told us all about it. Sigrid Weeks was overcome by the Orient, which was where she went for the vacation. Carol Bewley came back from the South Pole with some specimens for the Biology department, namely some penguins: Mary Lamb Bellnap Barbara Leonard, Shiela Foley, Anna Grace Dovell, Marilyn Wilner, Shirley Slocum, DeDe Free, and Jackie Walker. Anne Lenzi came back dreamy eyed from Vermont and sang about "Moonlight In Vermont." Joni Camden and Helen Grantz went to South America where they picked up a real "cool" dance. At this point Mike McGinnis, Sandy Elroy, Jackie McClung, Joy Lowry, Betty Noell and Carolyn Alderman told the crowd that they were "Collegiant." Pagie King, straight from Hawaii, came in then and proved that she went to Hawaii by showing everyone a wonderful hula

their men to "Take Back Your Mink." Dot Rice, Betty McGhee, Mink." Dot Rice, Betty McChee, Joan Glover, and Kacky Broadwell came back from "charleston" and showed us the act that they per-formed for the finest families of that great city. Liz Schuster, Mimisie Martin, Elaine Nixon, Pat Harris Shiela Foley, Marnie Esta-brook, and Grave Vagas came on brook, and Grave Vagas came on then to tell us that they want to go back to "Dixie." Anne Jones, Jean Harris, Betty Lou Souther-land, and Marilyn Whitson told the group all about "Darkness on the Delta." A truly outstanding act was done to the tune of "Basin

act was done to the tune of "Basin Street" by Pru Baumgarten, Mary Lou Fletcher, CeCe LeStourgeon, Marion Olzack, Marilyn Stacy, and June Riddle. Betty Nolan came back from the "Congo" with quite a wild tale to tell. She got some people dressed up in congo costumes to help her tell the tale; Nancy Hallett, Joan Barker, Sally Smith, Janie Watson, and Kay Nelson. Finally Prudella came back from Rome to tell the group that she had found the perfect back from Rome to tell the group that she had found the perfect gift for the senior class. The final act was a choral group

The final act was a choral group which sang "You'll Never Walk Alone," "The Echo of the Chimes," and "When You Come To The End of A Perfect Day." Emmy Hepford told what Prudella had ford told what Prudella had thought of that school spirit was so much more important than any material gift could ever be. Joanne material girt could ever be. Joanne Insley represented the torch, and Lo Ann Todd gave an interpretive dance to the song "You'll Never Walk Alone."

After the benefit on Friday night the seniors presented the sophomores with a replica of a charm bracelet made of ivory and white carnations. On the "bracelet" were souveniers of each of the benefits that the class of '55 had given as well as remembrances of the two benefits that the class of '57 had given..

A party for the sister classes followed in the Tapestry Room.

Council Representatives Are Elected by Classes

Psychology Club Elects Officers for 1955-56

The Psychology Club had a meeting on March 24 to elect officers for 1955-56. The following were elected: President, Marge Wilher; Vice President, Emilie Carlin; Secretary - Treasurer, Edna

We Offer Our Thanks . . .

We, the new Bullet Staff of 1955-56, would like to ress our thanks for the guidance that we have received throughout this past year from the out-going staff. We would like to thank all of the members for the confidence they have placed in us by electing the present staff to carry on the publication of the Bullet. Our aim is to bring the news to the students and offer to them an opportunity for ex-pressing their talent in a literary manner. We feel that in order for the Bullet to attain its highest goal, we must have the cooperation and interest of the entire student body as well as any constructive criticism which could be offered. Please bring these criticisms immediately to the attention of the staff in order that we may improve the Bullet to the best of our ability. On our desk we have a clean fresh calendar which is dated March 29th. This calendar signifies many promising new days and every day will be a challenge and every challenge adequately met will be a blessing.

Ezra Pound, As I Saw Him

BY IRENE HUGHES

EDITOR'S NOTE: With apologies to Irene Hughes, the Bullet pre-sents the "translation" of her

He has walked among the free written and thought outside the boundaries of what is known as the "average," but now he sits defeated behind a locked door. Age has removed his energy—his fight-ing spirit is a thing of the past. A gray-haired man sits before a dust-streaked window, barred and bare, regretting that people are like they are and that he can't do anything about it. This is the pic-ture of poet Ezra Pound.

Pound said what he thought, and now he is paying a stiff price for it. He expressed his beliefs and was considered a traitor for doing so. What did he accomplish? That seems to be undecided. He is a man of superior intelligence who apparently picked the wrong side of the -in the long run.

fence—in the long run.

The charge of treason against him resulted from what was termed his "pro-Facist" radio broadcasts. He was arrested near Genoa, Italy in May, 1946, brought back to this country and examined by a board of psychiatrists who declared him to be "insane and in need of treatment in a mental hospital." On Feb. 13, 1946, a jury heard his case and this report and returned the verdict "of unsound mind." He was taken to St. Elizabeths' Hose was taken to St. Elizabeths' Hospital, Washington, D. C. and has remained there since. He told me that it had been said that he and Mussolini were intimate friends, whereas, actually he had seen Mussolini only once—in 1932. To the question, "What were you trying estion, "What were you trying do through the broadcasts?" answered, "I was trying to he answered. break up the American propagan-da being spread there (in Italy) by pointing out certain things about the United States." This suggests counteraction, but Pound had more than that in mind. He said that his intention was to reveal the similar-ities between Italy and the United States rather than the differences. His novel Jefferson and/or Mus solini served that intention

Admittedly eccentric, he told me that people thought him odd for doing such things as reading ten volumes of classics straight through. Frankly, it indicates intelligence, perseverance and will power far in excess of the normal

He has a great intolerance for the educational system in Amer-

ica. He says that the schools fail to teach anything—that in some instances they do not even bother to gloss over a subject. He cited a case of a student enrolled at the University of California who not know what the North Pole when asked by his professor (the professor is a friend of Pound.) He said that we do not know our government, and that as a result the people of America allow themselves to be led around by the

nose. He is right.

Confucian in philosophy, Pound would endorse for himself this Confucian saying: "Not worried that men do not know me, but that I do not understand men." Perhaps this is an explanation for the lay-man's reception of Pound. How-ever, I do not think that many ever, I do not think that man try to understand him. He speak

in a language, so to speak, that the American cannot interpret. There is no place in our society for a man like Pound. His world is a theoretical one—an ideal world that can never exist. He would be misinterpreted and per-secuted for his ideals as before. He's aware of this, for he said, "The psychiatrist here asked me just what I thought would happen to me were I freed." He implied that he would not hesitate to conceal his thoughts, political otherwise, were he to be release from the hospital.

from the hospital.

As Hemingway said, this should be a year for releasing poets. What can the United States hope to accomplish by keeping Pound locked up? Certainly he has paid a high price for expressing something he believed, and he could hardly be considered dangerous now. I talked to him, and I say that he is NOT insane. Besides, what can the psychiatrists, who do little for the average man, do for a man of such extreme intelligence?

What is my impression of Ezra Pound? I consider him a poetic genius, a fascinating conversationallst, and a very gracious, though eccentric, gentleman. He possesses a charming wit and sense of hum-or. (I credit him also with extreme tact, for he did not show any signs

tact, for ne dd not snow any signs of amusement at what can be labeled only as my "ignorance.")
The memory of my visit shall never be forgotten, and to flatter myself I have his parting words to recall, "Come back anytime, Miss Hughes, and we'll talk more."

Of Fog and Fame

Somehow it always seems rather sad to see a thriving little hamlet like Fredericksburg exist in comparative obscurity. True, she has always had her historic monugas aways had her historic monu-ments to point to with pride, but it should be recognized that these are things of the past which must be replaced by something that will be new to attract public attention

be new to attract puone attention.

Therefore it was with great
pride and joy that we, who would
love to see Fredericksburg rise in
stature at least enough to be able
to boast another theater, watched
a fog, impressive in that it was of the sort hitherto associated ex-clusively with the Dismal Swamp and England, descend upon us. One and all must admit; there is nothg quite as impressive as im-orted goods.

The city fathers are to be com-The city fathers are to be commended for so shrewdly observing what smog did for Los Angeles and then applying their astute observation to their own particular problem. However, if we might be so bold as to suggest it, just a hunt of nauseating purple fumes might be very effective and assure the rest of the world that far from being forsaken and forlown. from being forsaken and forlorn in our fog as the Dismal Swamp and England seem to be, we, here in Fredericksburg, are made of the same hardy stuff as our famous predecessors.

However, we detect a note of hesitancy in the action of the city fathers in the sight of a patch of blue sky every other week or so and cannot deplore this too heartily nor urge too strongly that all delay be abandoned and every effects of the control of the co fort be made to insure fame and future to foggy Fredericksburg. Pauline Colthurst

Changes Pending

Nashville, Tunn—(I. P.)—Three important actions taken by the Educational Policy Committee of Fisk University are pending for faculty approval, according to an announcement by Dean George N. Redd of the College of Higher Studies. These relate to the method of calculating general honors; requirements for graduation in the English-Humanities sequence; and similar requirements in the Natural Science sequence.

1: Honors for Transfer Students: In October of the current

dents: In October of the current dents: In October of the current school year, the Committee recog-nized that the grade-point stand-ards for graduation honors apply only to those students who spend four years at Fisk. It voted, there-fore, that in order for those stu-dents, who do only part of their work at Fisk, to achieve general become they must meet require. nors, they must meet require-nts equivalent to those under the former system; i. e., earn slightly higher grade-point aver-

ages.
2. Calculation of General Honors: The Commmittee voted also that the requirements for general honors be calculated in terms of all grades earned by the student, and the former provision that "one or more grades below C" would not disqualify the student for these honors. These decisions were to be submitted to the faculty for final

apprival.
3. The English-Humanities Requirement: During the months of November and December, the Committee considered, in some detail, the question of academic detail, the question of academic credit toward graduation for the present course, English 11-12, designed for students showing deficiencies in writing upon entrance. Closely related to this was the question of the total requirement for graduation in the present English-Fumanities sequence for students who are required to take dents who are required to take

college credit toward the present 122 hours for graduation be grant-ed for English 11-12. This action is to be submitted to the faculty for final approval.

The Committee also approved a recommendation from the Basic College Curriculum Committee to institute a new sequence of courses to fulfill the science requirement for graduation, and that one group of these courses, comprising zoo-

logy, betany, psychology, and hu-man development, be described as the "Life Sciences," rather than the "Biological Sciences." The text of this proposal follows:

A. That the Basic College pro-gram of the Natural Sciences be livided into the two broad areas the life and physical sciences.

B. That each student take a general course in one broad area in his freshman year and that for his second year he take either a general course in the broad area an introductory course in the

C. That in the area of physical sciences the general course be one semester of Mathematics (Math-matics 21) and either a second sememester of Mathematics (Mathesemester of Mathietics (Mathietics 22) or a semester of Physical Science. The introductory depart-mental courses are in the fields of Physics and Chemistry.

D. That in the area of life sciences the general course be one semester of Biological, Science and one semester of Human Development. The introductory courses are in the fields of Zoology, Botany, and Bewelster. and Psychology.

Gems from Gobel

My son has a good head on his shoulders. No neck, just a good solid head. My mother calls me Bambi be-cause I was born during the hunt-

dents who are required to take cause I was born during the nuntities course. After much discussion, the Committee voted:

All students required to take English 1-12, should also be required to take both English 21-22 and Humanities 31-32; and that no Mother's new crystal.

At Fisk University Automobile Policy At Wheaton College

Wheaton, Ill .- (I. P.) - Wheaton College has instituted a new stu-dent automobile policy this year. Automobile permission is based on the following precepts:

No freshman or sophomore will be given an automobile permit except if commuting from home, married, disabled, or a least 25 years of age.

2. All students granted permits, except married, commuting and graduate students, must keep their cars in either a private garage or a college parking stall.

3. Students requesting an automobile permit must make applica-tion for such permit in writing the semester previous to their bring-ing a car to campus. All applica-tions are to be approved by the Student Affairs Committee.

 Automobile permission may be granted to juniors and seniors (unless married disabled, commutng. or 25 years of age) for the following approved purposes:

(a) Official college activities that require the use of an automo-

(b) Christian Council work The student must produce a state-ment from the Christian Council office indicating that his car is needed regularly for a Christian Council project and that he has been actively engaged in such a project for one full semester.

(c) Employment. The student must produce proof that his car is necessary for his work and that said employment is essential to his remaining in school. As a general principle, no automobile permission will be granted for work within the Wheaton city limits.

Students requesting car permits for purposes of employ-ment will be asked if their cars are available for Christian Council assignments.

5. The holder of a student automobile permit will be considered to have the use of his automobile for all necessary activities. The student is expected to exercise good

Fencing Team Places Second at Tri-Meet

On Saturday, March 19, the Fencing team of M.W.C. participated in a tri-meet which was held at William and Mary College and which included Madison, William which included Madison, William and Mary Andry Conwhich included Madison, William & Mary and Mary Washington. The first team from MWC consisted of Hermie Gross, Madeline Smith and Joan Tengzelius. These girls placed second with William and Mary placing first. The second team included Caroline Dale, Cynthia Stockbridge and Jackie Edwards who also placed second. Moral support was given by Miss
Droste who is the sponsor of the fencing club, and who has done a great deal for the girls this year.

adgement in his use of the auto-

6. Students receiving financial assistance from the college are ordinarily not expected to request an automobile permit.

Registration:

7. All student automobiles must be registered in the Personnel Office.

8. Students applying for automobile privileges must have an op-erator's license, state license plates, a Wheaton City Vehicle Tag or its equivalent from another city, mminimum liability insurance of \$15,000 and \$30,000 and property damage of \$5,000.

aamage or so, ove.

9. The College registration sticker must be carried by the student while driving Said sticker must be made fast to the right rear window.

"A cook book, like the Bible. is filled with directions that are meant to be followed exactly

When the campus queen beside you murmurs, "Gosh, I'll never pass!..."

Then turns to you and whispers, "Will you help me after class?"

vet so mild!

P.S. No other brand has ever been able to match the pure pleasure in Camel's exclusive blend of costly tobaccos — one of the reasons why Camels are America's most popular cigarette!

Extracts From Time Magazine

THE BIG WAVE

THE BIG WAVE

The U. S. has always had one fundamental attitude toward education: the more its citizens get, the better off they will be. Last week, at colleges and universities across the nation, the simple attitude was causing both concern and consternation. In 1955 few questions loom as large as: What does the nation do about the vast increase in enrollments expected within the next few years?

In supeches, articles and re-

within the next few years?

In speeches, articles and reports, almost every college president has had his say on the subject. But though some welcome the trend and others view it with alarm, all agree that a new era in education seems to be upon them. Between 1900 and 1950, the population of the U. S. doubled; in the last 20 years, the birth rate has shot up 88%, hitting 3,900,000 in 1953. If the same percentage of young people go to college by 1970 as at present (about 30%), enrollments will jump 75% to 4,219,047. Should the college percentage increase to 40%, enrollments might soar to well over 5,000,000. Thus, says Registrar Ronald Thompson of Ohio Strate Intracate 40. says Registrar Ronald Thompson of Ohio State University, "it is no longer appropriate to debate the extent of the need. The children have been born . . . We in higher education have just a few years in which to put our house in order."

which to put our house in order."
Funds & Faculties, Colleges and universities are aware that putting the house in order is easier said than done. Already overcrowded and harassed by budget troubles, they must now find the funds, build new facilities, hire more teachers at a time when they are suffering from a shortage of all three. In 1954 the Economic Report of the President estimated that the U. S. college campus is already \$6 billion behind in its building program. Furthermore, says President John A. Perkins of the University of elaware, "it has been estimated that in the next 15 years as much floor space will have to be provided for higher extenses as the proper of the present the present the property of the present the property of the present the present the property of the present the present the present the property of the present the pre floor space will have to be pro-vided for higher education as was built in the 300 pervious years of collegiate history."

The shortage of teachers is in a sense even worse: if the present ratio of one teacher to every 12 students is to be kept into 1970, higher education will have to add between 351,000 and 555,000 men and women to its faculties. Meanwhile, the number of young people training for the profession is far from enough. One indication: the The shortage of teachers is in a from enough. One indication: the percentage of doctorates (1.5% of all degrees) awarded in 1951 was exactly the same as in 1940.

Lectures & TV. Some educators think that the present retirement policies for professors should be revised. President Arthur S. Adams of the American Council on Education suggests that addition-al recruits might be found among educated women whose children educated women whose children have grown up, or perhaps among the growing pool of retired Army and Navy officers. J. F. Welle-meyer, Jr. of the American Coun-cil of Learned Societies thinks that universities might consider re-vamping some teacher - training vamping some teacher-training programs, and instead of insisting on the Ph.D. degree, might extend and deepen their programs lead-ing to the M.A. At the University of Toledo, President Asa Knowles has scoured the community and local industry for teachers, now has 75 business and professional men serving part time on his faculty. Other presidents have come to the conclusion that colleges may have to make use of bigger and bigger lecture courses and more and more TV.

With or without enough teachers, campus after campus was last week poring over blueprints for expansion. At his inaugural, Chanexpansion. At his inaugural, Chancellor C. C. Furnas of the University of Buffalo announced that he expected to double his enrollment of 10,000 by 1970. Hamilton College plans to increase enrollment from 575 to 700; the University of Detroit may go up from 8,500 to as many as 12,000. Bradley University plans to increase full-time enrollments from 2,500 to 3,500; Alfred University is starting a building program to accommodate a possible jump of 300 over its present student body of 900; lowa's Coed College, which has 750 students, hopes to have room for 1,000; and Union, in Schenectady, N. Y., may go from 950 to 1,200. The state universities may be forced to expand beyond either their expectations or desires. By 1970, says President Logan Wilson, the University of Texas may have grown from 16,000 students to 30,000—and that might be more than the university can properly handle.

States & Regions. In Florids, a

States & Regions. In Florids, a special council of educators has issued a preliminary report on how to met ethe wave of enrollments. Between 1930 and 1950, said the council, Florida's student population grew faster (561%) than that of 81% other state will explain. tion grew master (961%) than that of any other state, will probably jump another 300% to 106,000 by 1970. The council's tentative recommendations: that the state 1) agt up 12 to 16 two-year community colleges, 2) establish at least three new four-year colleges in colleges in colleges in the state of the

ease the preasure by keeping the South's campuses from needless-ly duplicating facilities. It is making a region-wide survey of courses in international relations and political science; it selected the forestry school of Duke Uni-versity as the "regional facility" for the Ph.D. in forestry, persuaded Louisiana to set up a much needed animal health research center instead of a superfluous school of veterinary medicine. Indeed, says Executive Director John Ivey, "in this region one can see the day when a college will not try to cover the whole field of liberal arts." Instead of attending just one institution for four years, a student might go to several, depending on which are strongest in his specialty.

In California, where 80% of college and university students attend public institutions, the pattern of the future is already well established. The state now has 68 publicly supported junior colleges, and the University of California has never shied away from opening up new campuses. Elsewhere, says Pressident Samuel Gould of Antioch College, the urban college or university may play an increasingly ease the pressure by keeping the South's campuses from needless-

nity colleges, 2) establish at least three new four-year colleges in College, the urban college or unimajor population centers, and 3) appoint a chancellor to help guide the three state universities in a "The idea of a central college diminish, the distinction between long-range program of expansion. In Atlanta, the Southern Ren in strategic and nearby places will become the accepted permanent for 65 institutions, has taken another approach. It is trying to munity leaders will serve as part-

LUCKY DROODLES! GET'EM HERE!

WHAT'S THIS? For solution see paragraph below. Droodle suggested by Norman Gerber, C. C. N. Y.

HAVE A LITTLE FUN when you . smoke. Enjoy yourself. Give yourself the pleasure of a bettertasting Lucky Strike. The enthusiasm often inspired by Luckies' famous better taste is illustrated in the Droodle (right) titled: Alphabet soup for Lucky smoker. So why stew over what cigarette to smoke? Luckies' taste is letter-perfect. After all. L.S./M.F.T.-LuckyStrikemeans fine tobacco. Then, that tobacco is toasted to taste better. "It's Toasted"- the famous Lucky Strike process-tones up Luckies' light, mild, good-tasting tobacco

to make it taste even better... cleaner, fresher, smoother. When you light up, enjoy the bettertasting cigarette...Lucky Strike.

STUDENTS! EARN \$25!

Lucky Droodles* are pouring in! When are yours? We pay \$25 for all we use, and for many we don't use. So, send every original Droodle in your noodle, with its descriptive title, to Lucky Droodle, P. O. Box 67, New York 46, N. Y.

*DROODLES, Copyright 1953 Ly Roger Price

Better taste Luckies...LUCKIES TASTE BETTER...Cleaner, Fresher, Smoother!

Terrapin Club To Present Aquacade At Homecoming

At last it is here! The Terrapin club's famed annual aquacade will be held during Homecoming Week on Friday, April 1st and Saturday, April 2nd. The beautiful display of April 2nd. The beautiful display of water skill and grace by the best symmers is an event familiar to all upperclassmen and one greatly anticipated by the yet uninitiated freshmen. This year the title of the program has been announced as "WATERCOLORS"—The acts themselves? That's still top section was called the still and the section of the program has been works. themselves? That's still top sec-ret, but the girls have been work-ing on them since the swimposium last Fall and we're sure they'll be the tops in "Marine" entertain-ment and well worth seeing. Ad-mission charge for the perfor-mance which starts at 7:30, will be

All numbers for this year's aquacade have been written by Terrapin Club members who in-clude: Barbara Smalley, secretary, Mimi Whittemore, president; Jac-Mimi Whittemore, president; Jac-Kie Davies, vice-president; Bonnie McCracken; Betty Jo Galliher; Mary Gale Buchanan; Babs Roms-ser; Pat Badger, Nancy Foley; Hermie Gross; Gloria Styer; Bet-tie Gillespie; Cynthia Michaels; Polly Stoddard; Prue Baumgarten; Marsha Stambach, Sandy Ogden, Lucy Abbott.

Participating in one of the Ter-Participating in one of the Ter-rapin Club numbers will be Junior Swim Club members: Gib Hurley, Fran Karens, and Yvonne Lewis. The Junior Swim Club will pre-sent a number of its own under the direction of Jackie Davies.

Seacobeck

SEACOBECK is an Indian word meaning "fall of the rocks." The Rappahannock is navigable only as far as Fredericksburg and Seacobeck is the name of the In-dian village "on the hill" when Seacobeck is the name of the Indian village "on the hill" when Captain John Smith and his intrepid followers sailed up the river in 1608. Twenty-five years ago a steamer sailed regularly between Fredericksburg and Baltimore.

Jazz

A blare, a screech, a rhythmic

Jungle tension in my feet. Mental mix-up, strange sensation Violent, violent, God's creation.

The lonesome sound of a bleak trombone beating drum in an underton shrill clarinet screetching,

scretching, Emotional, appealingly beseeching.

Sarage congo in the beating. Saxaphone, trumpet, bleating, bleating. Behind which a tango strums To the language in the drums.

A blue piano moanin' low.
Go! Go! Go! Go! Go!
Dull men have no right to razz.
Those with passion for the jazz.
—Seventeer

"Never the trains shall meet, sighed the small boy as he watch-ed the brakeman throw the switch.

Stoddard and Brittle Receive Service Awards From Student Govt.

Polly Stoddard and Frances Brittle were given the first ser-vice recognitions to be presented by the Student Government Asso-ciation at Convocation on March

Both Polly and Fran have been active in extra-curricular activities at M.W.C. Polly has been Treasurer of her Freshman Class, Treasurer of her Sophomore Class, Vice-President of Student Govern-ment, Treasurer of Student Gov-ernment, and Treasurer of Cap and Gown, as well as a member of the French Club, Phi Sigma Iota, the French Club, Phi Sigma Iota, and Terrapin. She was elected to Who's Who in American Colleges and Universities and was on the Dean's List. Polly, who is from Sarasota, Florida, is majoring in French. Her hobbies include swimning, playing basketball and volleyball.

Fran has been Secretary and

leyball.
Fran has been Secretary and Fran has been Secretary and Vice-President of Wesley, World Affairs, Vice President of Y.W. C.A., Program Director of the radio station and station manager, as well as member of Zeta Phi Eta, Phi Sigma Iota, and Alpha Phi Sigma. Her hobbies are reading, swimming, and dancing. An all "A" student, she has been elected to Who's Who in American Coled to Who's Who in American Colleges and Universities and is doing honors work. Fran is a Dramatic Arts and Spech major from Chase City, Virginia.

Rich Girl Versus Trouper

Over the years because persalities are involved, Oscar ve antices are involved, oscar votes have always been cast on other than a strict merit basis. It appears that sentiment will be a factor again this year is the two-horse races for — "Best Male horse races for Actor" between Actor" between Bing Crosby and Marlon Brando for "Best Pictures" between the Country Girl and On

the Waterfront and for "Best Female Actress" between Judy Garland and Grace Kelly. Especially two of the contests between Judy and Grace. As no two nominees could be more opposite. Judy, daughter of a Vaudeville nominees could be more opposite Judy, daughter of a Vaudeville team, has been in show business all her life. She has made 25 pic tures and won a Junior Oscar for her child role in Wizard of Oz. Warm hearted, emotional incrediin Hollywood. And she has had bly talented, she has been a favor ite in Hollywood. And she has had much sorrow, climaxed when she nicked her throat with broken glass three years ago. Hollywood knows too, that Judy is broke, will give birth to her third child on April 7 and she wants the Oscar badly, for A Star is Born, the film into which she sank her own into which she sank her own money wasn't ever nominated for an award. On the other hand, Grace Kelly

On the other hand, Grace Keiny is tall, cool, reserved and the daughter of a millionaire. She is respected and admired in the industry but has yet to arouse the warmth of her associates. Everywarmth of her associates. Everyone admits however, that her performance as the long-suffering
wife of an alcoholic actor in The
Country Girl was one of the memorable acting jobs of the year.
Grave say frankly "Td like very
much to win an Academy Award
But Tm sure Judy will get it."

Judy assy just as frankly. "Td.

Judy says just as frankly, "I'd like an oscar sure. But I think Grace Kelly will walk away with

The Ballots have been marked and the votes tallied. Soon we will all know which is right.

Miss Belva Dunn Holds Position On **Board of Visitors**

Belva Dunn, a graduate of Mary Washington College, has been ap-pointed by Governor Stanley to serve on the Board of Visitors which meets the second Friday of each month. She is a member of the M.W.C. committee which considers matters relating specifically to that college before they are brought to the entire board. She brought to the entire board. She is also on the properties committee which oversees property the university owns. Miss Dunn, 32, majored in commerce when she attended M.W.C. She is a petite woman whose face is framed by short-cut, prematurely grey hair. Miss Dunn is the exact opposite of the popular notion of the college trustee. She is younger than her fellow board members by at least a decade, in some cases more.

The Fraternity Man

In this month's Compact magazine I read an interesting article concerning fraternity men. Have you ever dated any of the following? First we have the "pin-pusher." He is suave, has savoir-faire er." He is suave, has savoir-taire which he uses to tempt unsuspecting females. He wears his Beta Eta Theta polo shirt constantly to Impress the gals. He swaggers around campus watching for lush new creatures, sizes them up, then swings into action. Five minutes later the girl is wearing his shiny octagon shaped pin. One week later it has switched sweaters. With this type, you girls should With this type, you girls should be extremely cautious and try to avoid him. He can be detected by that "come hither" stare. Forget that "come hither" stare. Forget your pride when you see him, run if you must! Then we have the "bore"—he knows all there is to know about anything, he thinks. He wears his horn rims far down on his nose in hopes of being taken for a brain. He uses none other than five syllable words. He has two subjects of conversation, his two subjects or conversation, his frat which he says is the best (Phi Beta Rah) and his courses which are the hardest—music ap-preciation and auto driving. He delights in making girls unsure of themselves. He'll dance the 2step to everything from a tango to a jitterbug. He tells the guys all the girls are crazy about him, even though they walk out on him even though they walk out on him the first chance they get. Now we arrive at the type who walks around campus with an untense quest for knowledge. This of course is the "book worm." He dreads wekends because he misses dreads wekends because he misses his two favorite classes—the history of lower Slombovia and Chemical Analysis of Phycompectes and the Law of Thermodynamics. He must eat his wheat germ before retiring at 8:30. He doesn't realize there is "another kind" so consequently has never dated. He is a valuable aid to the Sigma Sly fraternity average. He has maintained a straight 5-point but has never quite recovered from the A he received in English composition on his theme "Freudian Decomposition." Now we have the type we all dream about—"The Hodel." He is likable, congenial and generous. He is of the tall, dark and handsome variety but doesn't know it. He is studious, but not obnoxiously and participates in campus activities. He is an athlete and a letter man. He will always show a girl a good time. My only comment to this latter type—there is such a creature??? his two favorite classes-the his-

"That's a nice suit, Joe. How much was it?"
"A hundred and ten dollars."

"Isn't that rather expensive?"
"Oh, I don't know. I got fifteen airs of pants with it."

The devotion of American music lovers to the internationally fam-ous duo-pianists, Ethel Bartlett ous duo-planists, Ethel Bartlett and Rae Robertson, is a tribute to the impreccable musicianship, almost psychic accord and delight-fue personalities of the two artists which have justly won for them the title of "leaders in their field." Ethel Bartlett was brought to London when she was ten and educated there. Rae Robertson was born in a small Highland village near Inverness in the north of born in a small Highland village near Inverness in the north of Scotland and is an M.A. of Edin-burgh University. They met, fell in love and were soon married when they were both students under Tobias Matthay at the Roy under Tobias Matthay at the Royal Academy of Music, London. As rising young pianists, they found individual careers, no matter how successful, uncompatible with mutual happiness. They solved their personal and professional problem brilliantly by joining forces in two-piano recitals. Their rise to fame was based on a happy combination of superb performances and brilliant programs. The unique Bartlett and Robertson repertoire ranges from original pertoire ranges from original music with two keyboards through the best transcribed works to ne scores by leading composers wri ten especially for them. They hav toured all of Latin-America an writtoured all of Latin-America and South Africa as well as all of Europe, the United States and Canada. The Boston Herald calls them—"the best beloved plano duettisto in the world." When they were in Holland, The Hague said, "a superlative psychic unity." In were in Holland, The Hague said,
"a superlative psychic unity." In
Amsterdam "the soloists played
with great brilliance and perfect
unity. Their success was enormous." In England, they played at
the Edinburgh festival in 1951 and
the Times called their performance
"Heartwarming." The Glasgow
Bulletin said "more than any
others these two have stimulated
interest in two-nifan music."

others these two have stimulated interest in two-piano music."

The American reviews followed along the same lines as the European. The New York Times said, "Their playing possessed sparkle, life and verve." The Herald Tribune called them "leaders in their field." The Chicago Daily Tribune stated, "I don't know when I have heard a more refreshwhen I have heard a more refreshwhen I have heard a hore-tresh-ing performance than theirs in Orchestra Hall—it was a flawless and fastidious performance and I and fastidious performance and I should think it put everyone who listened in a good or better humor." From Washington, D. C.—The Times Herald, "These artists in our judgment, stand first in their specialty." The Kansas City Times stated, "Of all the two-piano teams that have played in Kansas City since the ensemble became fáshionable the Robertsons give evidence not only of having acevidence not only of having evidence not only of having ac-quired the closest psychic under-standing but also of having built the most comprehensive technique for their particular use." In Van-couver, Canada they were given this review—"Their incomparable this review—"Their incomparable artistry delighted and entertained an audience which filled every seat in the Strand Theater—they have in the Strand Theater—they have retained their reputation as "tops" in duo-piano teams." In Toronto it was said that listening to these great artists is to be absolutely certain that two pianos are more glorious than one four times over. On March 29, Bartlett and Robertson will be here on our campus and they will be the guest stars in the I weap program presented.

and they will be the guest stars in the Lyceum program presented at George Washington. All those who can, should take this oppor-tunity to see and hear this fam-ous team.

They discussed the discrimination problem in terms of "The American Scene Today," giving their interpretation of recent events from the viewpoint of a sociologist and and historian. Following each of the plenary sessions the delegates divided into 15 small discussion groups and discussed the insure sciend in the plenaries.

the delegates divided into 15 small discussion groups and discussed the issues raised in the plenaries. Saturday afternoon, Mr. Ralph McGill, Editor of the Atlanta Con-stitution; Mr. Clarence Berger, Dean of Administration of Bran-Dean of Administration of Brain-deis University; Mr. Jonathan W. Danielsl, Editor of the Raleigh (N. C.) News and Observer; and Mr. Louise M. Lyons, Curator of Mr. Louise M. Lyons, Curator of the Nieman Fellowships at Har-vard, participated in a panel dis-cussion on Contemporary Atti-tudes and Viewpoints." President Carl R. Woodward of Rhode Is-land University, whose remarks before a recent convention of the National Interfraternity Confer-National Intertracterity Conter-ence on Self-determination in Fraternities caused much discus-sion on college campuses, and Mr. Eugene S. Wilson, Dean at Amherst, presented their views on restrictive caluses in fraternal or-ganizations. The final plenary session on Sunday afternoon was addressed by John Ely Burchard, Dean of Humanities at M. I. T.

Sponsored solely by the Undergraduate Student Association of M. I. T., the Discrimination Con-M. I. T., the Discrimination Conference was one of the special events held in the new Kresge Auditorium during its first year of operation. The auditorium was opened for use on February 10th. The plenary sessions were presided to the New York of the New opened for use on February 10th. The plenary sessions were presided over by Eldon. H. Relley, Conference Chairman. The discussion groups were led by students drawn from a number of colleges including Notre Dame, U. C. L. A., the University of North Carolina, and

I think that I shall never see A grade as lovely as a B—
A B which stands out, bold and

A B which stands out, bold and stark
Upon my bluebook. What a mark!
I known I'll never get an A;
It doesn't even help to pray,
And I'll be darned if I will be
Contented with an awful C.
C's are made by fools like me Heck! I'll never get a B.

Training for Your Future

Some careers offer security; fabrics, clothes and home furothers offer fun. The ideal, of course, is a combination of the two—and that's home economics.

The job list is endless: Budget wo—and that's home economics a dviser, nutritionist, dietician. two—and that's home economics. This field is growing so gigantic that there are more jobs than trained girls to fill them. Whether she's scientific or artistic—has a head for business or is a born teacher—there's an unlimited opportunity for every girl to fulfill herself to this creative work.

The research worker is busy making the world of tomorrow in which stockings won't run or sweaters shrink. Industry, universweaters sarrink. Industry, univer-sities and government services of-fer her jobs. The tester may turn her attention to new products or fabrics or see how they can be

improved.

The writer has a growing field on women's programs in television, and home economics is one of her surest approaches to radio. Magasurest approaches to radio. Maga-zines with homemaking depart-ments, visual-education films, newspapers and advertising pub-lications of all kinds need her serzinac

vices.

The food photographer deals with one of the newest phases of home economics and her work is something the artistic girl should note. Note, also, that women note. Note, also, that women trained in home economics design Benson reports.

nishings.

The job list is endless: Budget adviser, nutritionist, dietician, teacher, extension worker (a teacher who goes into rural homes) and consultant. As time and progress march on, the list will expand. And don't overlook the fact that anyone schooled in this varied field will have superb-training for the day when she has a home of her own. her own.
